Robert L. Hagan, Deputy Director

Shirley Kallek, Associate Director for Economic Fields

AGRICULTURE DIVISION

Orvin L. Wilhite, Chief

ACKNOWLEDGMENTS—Many persons participated in the various activities of the 1974 Census of Agriculture. Primary direction was by Shirley Kallek, Associate Director for Economic Fields. Her predecessor, James W. Turbitt, now Associate Director for Administration and Field Operations, directed the early stages of planning for the census.

This report was prepared in the Agriculture Division under the general supervision of J. Thomas Breen, Chief (to February 1976), and Orvin L. Wilhite, his successor. Arnold L. Bollenbacher, assisted by Thomas D. Monroe, Donald R. Jahnke, John A. Blackledge, William A. Harlan, and John C. Womack, was directly responsible for review and analysis of the data and for clerical and computer edit and tabulation specifications. Kenneth R. Norell, assisted by Albert W. Graybill, coordinated the organization and content of the publication tables. Robert S. Taylor, assisted by John E. Adkins, Stephen M. Schobel, Loyd C. Brown, Jack H. Margolis, Edward J. James, and William R. Adams, was directly responsible for the operational aspects of data collection, processing, and tabulation, including preparation of control systems, clerical procedures, and computer programs. Janet W. Hall provided editorial services and coded the Linotron table formats of this report for publication via the Linotron computer system. J. Jack Ingram (to September 1974) and Charles E. Rogers, his successor, assisted by Darrell D. Prochaska and Harold V. Edwards, were directly responsible for mailing list acquisition and unduplication, design of sampling procedures for data collection, monitoring of processing, and evaluation of coverage. J. Thomas Miller, Consultant, assisted in the design and content of the data collection forms and followup letters, specifications for publication tables, and preparation of text. O. Bryant Benton, Chief, Data Preparation Division, Jeffersonville, Indiana (to March 1976), and Don L. Adams, his successor, assisted by Robert L. Allen, Rebecca Nesbit, and Darrell L. Farabee, were directly responsible for clerical and data-encoding operations.

The computer processing facilities used were under the general supervision of James R. Pepal, Chief, Computer Services Division (to May 1976), and Thomas C. DiNenna, his successor.

Forms design was accomplished under the general supervision of Cecil B. Matthews, Chief, Administrative Services Division (to September 1975), and Henry J. Husmann, his successor, assisted by Gladys S. Potts and Cathern S. Kline.

Maps were prepared by the Geography Division under the general supervision of Jacob Silver,

Chief, assisted by Frederick R. Broome and Henry Tom.

Within the Publications Services Division, many individuals made significant contributions in the areas of publication planning and design, editorial review, composition, and printing procurement.

Important contributions were made by the members of the Census Advisory Committee on Agriculture Statistics in establishing data needs and priorities for collection and publication of the information. Other representatives of both public and private organizations also made significant recommendations and suggestions.

Members of various agencies of the U.S. Department of Agriculture provided advice and counsel during the planning, data collecting, and processing phases of the census and assisted farmers and ranchers who requested help in completing the report form.

The press, farm magazines, and radio and television stations, were most helpful in publicizing the census and encouraging cooperation of farm and ranch operators. Dean L. Quirin, Agriculture Division, and Dorothy W. Whitson, Public Information Office, were primarily responsible for developing and coordinating the public relations program.

Special tribute is paid to the millions of farm and ranch operators and other agriculture-associated people who furnished the information requested in the census. Only through their cooperation was it possible to collect and publish the data in this report.

REPORTS OF 1974 CENSUS OF AGRICULTURE

Preliminary Reports. Four pages of data published separately for each county having 10 farms or more, and for each State, the four geographic regions, and the United States. *The statistics printed in these reports are superseded by those in the final reports, Volumes I through IV.*

Volume I. State and County Data. One for each State, Puerto Rico, Guam, and the Virgin Islands, covering the area and its subdivisions. The reports for the States contain data for all farms and farms with sales of \$2,500 and over. *Chapter I* contains detailed data at the State level classified by size of farm, tenure and age of farm operator, type of organization, value of products sold, and major type of farm; *Chapter II*, county data summarized by subject; *Chapter III*, county data by subject for miscellaneous crop and livestock items found in relatively few counties; *Chapter IV*, county data by county.

Volume II. Statistics by Subject. Chapters containing total data for the United States, geographic regions and divisions, and States, for all farms and farms with sales of \$2,500 and over.

Volume III. Agricultural Services. Data by county for each State covering establishments whose primary activities are providing agricultural services. Data at the U.S., State, and county levels for all establishments are presented for selected four-digit standard industrial classification codes by size and type of organization. Data shown include dollar volume of business, gross receipts from products provided, gross receipts, labor and payroll by type of service performed, capital expenditures, and expenditures for electricity, gasoline, petroleum, and other fuels.

Volume IV. Special Reports.

Part 1. Graphic Summary. Profiles the Nation's agricultural system in a series of U.S. maps, a number of which are printed in color. The characteristics of America's farms in 1974 are illustrated for crops, livestock, and many other characteristics.

Part 2. Ranking Counties and States. Reports on the top ranking 100 counties and 10 States in descending order of importance for 88 selected items for 1974 with comparative data for 1969.

Part 3. Coverage Evaluation. Shows the completeness of the agriculture census for States, geographic divisions, and the United States. Data also show the characteristics of farms missed by value of sales and by selected standard industrial (type-of-farm) classifications. Sampling reliability of the estimate of coverage is shown by value of sales classifications.

Part 4. Procedural History. A comprehensive summary of the procedures used in conducting the 1974 Census of Agriculture, in the 50 States, Puerto Rico, Guam, and the Virgin Islands. The history explains the procedures used from early planning and testing through tabulation and publication of the final reports.

INTRODUCTION

Authority, Area Covered, and History

The 1974 Census of Agriculture was taken in accordance with the provisions of Title 13, United States Code, reaffirmed by section 818 of the Agriculture and Consumer Protection Act of 1973 (Public Law 93-86). Sections 142(a) and 191 of Title 13 provide for a census of agriculture every 5 years in each State, the District of Columbia, Puerto Rico, Guam, and the Virgin Islands.

The 1974 census is the 20th nationwide census of agriculture and the second conducted primarily by mail. The first agricultural census data were collected in 1840 as part of the sixth decennial census. Since that time, a census of agriculture has been a part of each decennial census program, and since 1920 a national census of agriculture has been taken every 5 years.

Farm Definition

For each of the 20 censuses of agriculture except the first, taken in 1840, the agency responsible for conducting the census has established minimum criteria which define a farm for the purpose of the census. As the Nation has developed and grown, agriculture also has changed and grown, and from time to time the minimum criteria for the definition of a farm have been changed.

Prior to 1974, the eighth and most recent change in minimum criteria was for the 1959 Census of Agriculture, when the definition of a farm was based primarily on a combination of acres in the place and value of agricultural products sold.

The word "place" was defined to include all land on which agricultural operations were conducted at any time in the census year under the day-to-day control or supervision of one person or partnership. Control may have been exercised through ownership or management or through a lease, rental, or cropping arrangement.

Places of less than 10 acres in the census year were counted as farms if the estimated sales of agricultural products for the year amounted to at least \$250. Places of 10 or more acres in the census year were counted as farms if the estimated sales of agricultural products for the year amounted to at least \$50. Places having less than the \$50 or \$250 minimum estimated sales in the census year were also counted as farms if they could normally be expected to produce agricultural products in sufficient quantity to meet the requirements of the definition.

Using the 1959 definition, the 1969 census reported about 571,000 farms in the United States having sales of less than \$1,000; these farms comprised 20.9 percent of all farms but contributed less than 1 percent of total sales. In 1974 there were only about 152,000 such farms, accounting for less than 6 hundredths of 1 percent of total sales. Between censuses many of these small farms had ceased operations, while many others had sales of \$1,000 or more in the census year, either because of increased agricultural activity or because of increases in the per unit value of agricultural products sold.

In view of increases in price levels and other changes in the structure of agricultural operations, various individuals

and organizations, including members of the Census Advisory Committee on Agriculture Statistics, the Office of Management and Budget, and the U.S. Department of Agriculture, agreed that a change in the definition of a farm was justified. The Department of Commerce announced on August 12, 1975, that the census definition of a farm, for purposes of publishing the 1974 census data, was any establishment which during the census year had or normally would have had sales of agricultural products of \$1,000 or more.

In the next 10 months, Congress held four hearings on the appropriateness of changing the definition. During this time, Public Law 94-229, enacted March 15, 1976, included a provision requiring the statistical classification of farms in effect on January 1, 1975, to be continued in effect through June 30, 1976, and that any statistical report issued on or before June 30, 1976, should reflect such classification, but could also include additional classifications as deemed appropriate by the Secretary of Commerce.

Definition for preliminary reports. Publication of the preliminary county reports began in April 1976, and these reports for all counties and States, the four regions, and the United States were tabulated and published in accordance with the same farm definition used for the 1959, 1964, and 1969 censuses.

Definition for final reports. For all final reports, the 1974 statistics are in accordance with the 1974 definition, which differs from the earlier definition in only two respects:

INTRODUCTION Continued

1. The criterion for number of "acres in place" has been deleted.
2. The criterion for minimum value of agricultural products sold has been changed to \$1,000.

Thus for 1974, a farm was defined to include all land on which agricultural operations were conducted at any time in the census year under the day-to-day control of an individual management, and from which \$1,000 or more of agricultural products were sold during the census year. Control may have been exercised through ownership or management, or through a lease, rental, or cropping arrangement. Places having less than the minimum \$1,000 sales in the census year were also counted as farms if they could normally be expected to produce agricultural products in sufficient quantity to meet the requirements of the definition.

Three tables in this report provide users with measures of the effect of the change in definition: The table following this introduction shows farms and sales, by county, for 1974 and 1969, for both the old and the new definitions, and also for those places excluded by the 1974 but not by the 1959 definition. In chapter II, table 33 presents data by county for 1974 showing comparisons between farms (1974 definition) and agricultural operations that would have been farms under the 1959 definition. The table that comprises appendix B presents data by State for 1974 and 1969 showing characteristics of 1974 agricultural operations excluded by the new definition and of 1969 farms having less than \$1,000 total value of sales.

The 1974 "all farms" data shown in State tables 1 through 9 and county tables 1 through 10 are for those agricultural operations with at least \$1,000 in total (or potential) sales of farm products. All other tables in this report are limited to farms with sales of \$2,500 or more (see the paragraphs in appendix A that describe the report forms and the enumeration method).

Comparability of Data

In general, data for 1974 and earlier

censuses are comparable with data from earlier censuses only for farms with \$2,500 or more total value of sales, because the data for farms with \$2,500 or more value of sales are not affected by the change in farm definition. Data for all farms for 1974 are based on the new definition so they are not directly comparable to earlier censuses. It is also important to note that in addition to the difference in farm definition used in this report from that in the preliminary version, this final report contains 1974 figures which will not agree with figures in the preliminary reports because of corrections, additions, and deletions.

Even for farms with \$2,500 or more value of sales, the difference in timing and the change from personal interview to mail enumeration affect the comparability between the data for 1974 and 1969 and that for earlier censuses. Both 1974 and 1969 censuses were taken by mail; all earlier censuses were taken by direct interview.

Dramatic changes in rates of farm expenditure and unit prices of products sold between the 1969 and 1974 censuses affect the comparability of some census data. During the period between the two censuses, prices paid by farmers greatly increased. Prices received by farmers also increased but with wide fluctuations among commodities at different times during the census year of 1974.

Crop and livestock production data are for the calendar year 1974, except for a few crops (such as citrus) for which the production year overlaps the calendar year. Expenditures, crops irrigated, usage of agricultural chemicals and fertilizers, and sale of farm products were all asked for the calendar year. Respondents were instructed to report inventory numbers of livestock, poultry, and other specified items as of December 31, 1974. The reporting period and inventory data are the same as for the 1969 census.

Censuses prior to 1969 were taken by enumerators, each assigned to a specific geographic area. Field work for the 1964 and 1959 censuses was completed largely in October, November, and December of the reference year. Livestock and poultry inventories for those two censuses were as

of the time of enumeration. Other variations in time of enumeration occurred in censuses prior to 1959.

Graphics

On the following pages, there is a graphic presentation of selected agricultural statistics for this State. The first four dot maps are being published for all States. The second four dot maps have been selected to present data of particular importance to this State.

Tabular Presentation

State data—In chapter I, State tables 1 through 27 show detailed State level data generally accompanied by historical data for one or more censuses. Tables 28 through 33 provide 1974 State data cross-tabulated by various farm classifications.

County summary data—A summary of selected data items for each county of the State is presented in chapter II of this publication. In these tables the counties are listed in alphabetical order with the State total at the beginning of each table.

County miscellaneous data—In chapter III, data for additional crop and livestock items not common to a large number of counties are reported in a separate set of tables by county for each State. Some of these items, even though reported in only a few counties of the State, are sufficiently important to account for a significant proportion of the agricultural production.

Counties not having the subject item of a given table, or with only a very limited number of farms reporting the item, are not listed separately; their data are combined with other counties and presented as "All other."

Final county data—Six pages of data are presented in chapter IV for each county with 10 farms or more in 1974. The tables include final data for each county and are more comprehensive than those in the preliminary reports. Data are for the year 1974 with inventory (on place)

INTRODUCTION Continued

figures as of December 31, 1974. Information covering all farms and farms with sales of \$2,500 and over are presented for both the 1974 and 1969 censuses. A State level six-page report like the county report is published at the beginning of the chapter.

Preliminary county data—Preliminary reports have been published separately for all counties in the United States with 10 farms or more in 1974. This four-page series provided, at the earliest possible date, usable information on a limited number of major data items, with comparative final figures from the 1969 census.

The reports were issued on a flow basis, with a State report following the release of the last county report for each State. Tables showing regional and U.S. totals were also prepared as a part of this series.

For all States, the same table format was used to present the data except data for six selected crops shown in table 7. These crops were varied by State depending upon their relative importance.

For major items at the county level differences between the preliminary and final figures are in general less than 5 percent. At the State level, differences are significantly less.

"See Text" Reference

The remark "See text" in the tables refers to explanations, definitions, and classifications in sections 5 and 6 of appendix A.

Abbreviations and Symbols

The following abbreviations and symbols are used throughout the tables:

- Represents zero.
- D Data withheld to avoid disclosing information for individual farms.
- X Not applicable.
- Z Less than half of the unit reported.
- NA Not available.

\$1,000—farms

Farms by value of agricultural products sold:

\$500,000 and over

\$200,000 to \$499,999

\$100,000 to \$199,999

\$40,000 to \$99,999

\$20,000 to \$39,999

\$10,000 to \$19,999

\$5,000 to \$9,999

\$2,500 to \$4,999

Under \$2,500 (see text)

Grain sold

\$1,000—farms

Sales of \$40,000 and over

\$1,000—farms

Tobacco sold

\$1,000—farms

Sales of \$40,000 and over

\$1,000—farms

Cotton and cottonseed sold

\$1,000—farms

Sales of \$40,000 and over

\$1,000—farms

Field seeds, hay, forage, and silage sold

\$1,000—farms

Sales of \$40,000 and over

\$1,000—farms

Other field crops sold

\$1,000—farms

Sales of \$40,000 and over

\$1,000—farms

Vegetables, sweet corn, and melons sold

\$1,000—farms

Sales of \$40,000 and over

\$1,000—farms

Fruit, nuts, and berries sold

\$1,000—farms

Sales of \$40,000 and over

\$1,000—farms

Poultry and poultry products sold

\$1,000—farms

Sales of \$40,000 and over

\$1,000—farms

Dairy products sold

\$1,000—farms

Sales of \$40,000 and over

\$1,000—farms

Cattle and calves sold

\$1,000—farms

Sales of \$40,000 and over

\$1,000—farms

Hogs and pigs sold

\$1,000—farms

Sales of \$40,000 and over

\$1,000—farms

Sheep, lambs, and wool sold

\$1,000—farms

Sales of \$40,000 and over

\$1,000—farms

Other livestock and livestock products sold

\$1,000—farms

Sales of \$40,000 and over

\$1,000—farms

Nursery and greenhouse products sold

\$1,000—farms

Sales of \$40,000 and over

\$1,000—farms

Forest products sold

\$1,000—farms

Sales of \$40,000 and over

\$1,000—farms

Farm Operator Characteristics¹

Farm operators by age group:								
Under 25 years		604	4	49	106	135	172	138
25 to 34 years		2 327	76	264	356	537	578	516
35 to 44 years		3 481	147	396	503	704	915	816
45 to 54 years		4 984	150	535	820	1 153	1 263	1 063
55 to 64 years		5 137	101	439	837	1 288	1 323	1 149
65 years and over		3 485	19	81	262	674	1 267	1 182
Average age		51.0	46.1	47.0	49.2	50.9	52.4	52.6

Farm operators by place of residence:								
On farm operated		14 543	405	1 437	2 221	3 276	3 871	3 333
On another farm		1 129	14	52	117	235	372	339
In a rural area, not on a farm		699	7	30	82	146	214	220
In a city, town, or urban area		659	8	24	72	141	198	216

Form operators by principal occupation:								
Farming		11 421	481	1 635	2 199	2 717	2 455	1 934
Other		8 597	16	129	685	1 774	3 063	2 930

Form operators reporting off-farm income:								
Greater than value of farm products sold		7 319	1	13	76	1 047	2 913	3 269
Less than value of farm products sold		7 844	322	1 241	2 046	2 317	1 384	534
Not reporting or none		4 855	174	510	762	1 127	1 221	1 061

Form operators reporting days of work off farm								
1 to 49 days		10 806	96	561	1 314	2 463	3 302	3 070
50 to 99 days		1 055	47	192	207	220	218	171
100 to 149 days		534	10	82	106	124	112	100
150 to 199 days		650	7	70	114	162	158	139
200 days and over		7 657	25	177	754	1 704	2 551	2 446

Persons in household (other than farm operator) working off farm:								
Farms reporting		3 451	85	365	610	879	884	628
Number of persons		3 980	101	422	701	1 009	1 009	738
By number of days worked:								
1 to 49 days		635	25	99	92	155	156	108
50 to 99 days		420	15	52	85	106	98	64
100 to 149 days		392	9	53	70	106	107	47
150 to 199 days		651	16	62	125	176	149	123
200 days and over		1 882	36	156	329	466	499	396

Farms by Size								
1 to 9 acres		10	—	—	—	—	2	8
10 to 49 acres		2 100	—	—	2	42	600	1 456
50 to 69 acres		1 552	—	—	9	152	644	747
70 to 99 acres		3 981	—	—	74	802	1 694	1 411
100 to 139 acres		3 337	—	22	258	1 080	1 255	722
140 to 179 acres		2 485	—	44	459	977	703	302
180 to 219 acres		1 584	1	84	503	585	318	93
220 to 259 acres		1 154	3	146	420	348	167	70
260 to 499 acres		2 709	88	905	1 034	482	142	59
500 to 999 acres		980	269	533	131	37	7	3
1,000 to 1,999 acres		180	132	44	2	2	—	—
2,000 acres and over		19	19	—	—	—	—	—

Farms by Standard Industrial Classification (see text)								
Cash grain farms (011)		20 091	512	1 778	2 892	4 507	5 532	4 870

Farm Operator Characteristics¹

Farm operators by age group:								
Under 25 years	7	—						
25 to 34 years	72	7						
35 to 44 years	120	16						
45 to 54 years	226	28						
55 to 64 years	225	25						
65 years and over	154	8						
Average age	53.0	50.7						
		50.7						
			50.7	50.8	54.0	56.1	55.6	

Farm operators by place of residence:

On farm operated	529	55						
On another farm	11	2						
In a rural area, not on a farm	28	3						
In a city, town, or urban area	109	14						

Farm operators by principal occupation:

Farming	533	72						
Other	271	12						

Farm operators reporting off-farm income—

Greater than value of farm products sold	195	—						
Less than value of farm products sold	305	40						
Not reporting or none	304	44						

Farm operators reporting days of work off farm

1 to 49 days	270	10						
50 to 99 days	32	3						
100 to 149 days	15	—						
150 to 199 days	23	1						
200 days and over	31	2						

Persons in household (other than farm operator) working off farm

Farms reporting	112	4						
Number of persons	139	4						
By number of days worked:								
1 to 49 days	33	1						
50 to 99 days	19	—						
100 to 149 days	22	1						
150 to 199 days	9	—						
200 days and over	56	2						

Farms by Size

1 to 9 acres	321	32						
10 to 49 acres	301	39						
50 to 69 acres	53	8						
70 to 99 acres	72	12						
100 to 139 acres	46	8						
140 to 179 acres	22	4						
180 to 219 acres	23	7						
220 to 259 acres	25	3						
260 to 499 acres	42	19						
500 to 999 acres	17	11						
1,000 to 1,999 acres	3	2						
2,000 acres and over	2	2

Table 33. Summary by Standard Industrial Classification of Farms by Value of Sales: 1974—Con.

Farms With Sales of \$2,500 and Over**Farms by Standard Industrial Classification (see text)—Con.**

Sugar crop, Irish potato, hay, peanut, and other field crop farms (0133, 0134, 0139)

Vegetable and melon farms (016)

Fruit and tree nut farms (017)

Horticultural specialty farms (018)

General farms, primarily crop (0191)

Livestock farms, except dairy, poultry, and animal specialty (021)

Dairy farms (024)

Poultry and egg farms (025)

Animal specialty farms (027)

General farms, primarily livestock (0291)

Farms not classified by SIC

Value of Products Sold**Market value of agricultural products sold**

Farms \$1,000

Farms by value of agricultural products sold:

\$500,000 and over

\$200,000 to \$499,999

\$100,000 to \$199,999

\$40,000 to \$99,999

\$20,000 to \$39,999

\$10,000 to \$19,999

\$5,000 to \$9,999

\$2,500 to \$4,999

Under \$2,500 (see text)

Grain sold

Farms \$1,000

Sales of \$40,000 and over

Farms \$1,000

Tobacco sold

Farms \$1,000

Sales of \$40,000 and over

Farms \$1,000

Cotton and cottonseed sold

Farms \$1,000

Sales of \$40,000 and over

Farms \$1,000

Field seeds, hay, forage, and silage sold

Farms \$1,000

Sales of \$40,000 and over

Farms \$1,000

Other field crops sold

Farms \$1,000

Sales of \$40,000 and over

Farms \$1,000

Vegetables, sweet corn, and melons sold

Farms \$1,000

Sales of \$40,000 and over

Farms \$1,000

Fruit, nuts, and berries sold

Farms \$1,000

Sales of \$40,000 and over

Farms \$1,000

Poultry and poultry products sold

Farms \$1,000

Sales of \$40,000 and over

Farms \$1,000

Dairy products sold

Farms \$1,000

Sales of \$40,000 and over

Farms \$1,000

Cattle and calves sold

Farms \$1,000

Sales of \$40,000 and over

Farms \$1,000

Hogs and pigs sold

Farms \$1,000

Sales of \$40,000 and over

Farms \$1,000

Sheep, lambs, and wool sold

Farms \$1,000

Sales of \$40,000 and over

Farms \$1,000

Other livestock and livestock products sold

Farms \$1,000

Sales of \$40,000 and over

Farms \$1,000

Nursery and greenhouse products sold

Farms \$1,000

Sales of \$40,000 and over

Farms \$1,000

Forest products sold

Farms \$1,000

Sales of \$40,000 and over

Farms \$1,000

Table 33. Summary by Standard Industrial Classification of Farms by Value of Sales: 1974—Con.

Farms With Sales of
\$2,500 and Over

	Horticultural specialty farms (018)							
	Total	\$100,000 and over	\$40,000 to \$99,999	\$20,000 to \$39,999	\$10,000 to \$19,999	\$5,000 to \$9,999	\$2,500 to \$4,999

Farm Operator Characteristics¹

Farm operators by age group:								
Under 25 years		141	5	18	15	37	45	21
25 to 34 years		832	44	90	106	177	212	203
35 to 44 years		1 517	108	136	180	263	395	435
45 to 54 years		1 716	126	160	202	331	443	454
55 to 64 years		1 904	105	162	229	395	494	519
65 years and over		1 114	25	33	84	170	364	438
Average age		50.6	48.3	47.4	49.4	49.8	51.3	52.3

Farm operators by place of residence:

On farm operated		6 009	353	516	678	1 140	1 635	1 687
On another farm		120	6	7	18	21	35	33
In a rural area, not on a farm		117	6	5	13	31	34	28
In a city, town, or urban area		184	11	10	16	37	48	62

Farm operators by principal occupation:

Farming		3 932	395	526	613	785	836	777
Other		3 292	18	73	203	588	1 117	1 293

Farm operators reporting off-farm income—

Greater than value of farm products sold		2 947	1	5	23	370	1 093	1 455
Less than value of farm products sold		2 777	274	415	575	744	536	233
Not reporting or none		1 500	138	179	218	259	324	382

Farm operators reporting days of work

off farm		4 096	80	183	377	824	1 257	1 375
1 to 49 days		379	39	53	61	73	73	80
50 to 99 days		178	8	19	27	45	37	42
100 to 149 days		248	8	18	29	57	80	56
150 to 199 days		420	1	16	40	103	122	138
200 days and over		2 871	24	77	220	546	945	1 059

Persons in household (other than farm operator) working off farm:

Farms reporting		1 603	78	134	199	336	420	436
Number of persons		1 869	93	159	229	397	489	502
By number of days worked:								
1 to 49 days		306	22	37	39	74	64	70
50 to 99 days		231	11	22	31	47	65	55
100 to 149 days		177	13	23	28	43	32	38
150 to 199 days		276	9	23	32	55	82	75
200 days and over		879	38	54	99	178	246	264

Farms by Size

1 to 9 acres		193	1	9	15	25	57	86
10 to 49 acres		750	4	12	28	93	229	384
50 to 69 acres		474	—	6	20	69	163	216
70 to 99 acres		1 154	4	14	68	232	388	448
100 to 139 acres		1 125	9	45	110	251	367	343
140 to 179 acres		887	4	47	112	209	298	217
180 to 219 acres		579	6	50	99	157	145	122
220 to 259 acres		479	16	66	97	108	106	86
260 to 499 acres		1 090	119	246	210	190	170	155
500 to 999 acres		429	189	106	45	42	29	18
1,000 to 1,999 acres		104	71	10	17	3	2	1
2,000 acres and over		15	12	—	2	1	—	—

Farms With Sales of \$2,500 and Over
Farms by Standard Industrial Classification (see text)—Con.

Sugar crop, Irish potato, hay, peanut, and other field crop farms (0133, 0134, 0139)

Vegetable and melon farms (016)

Fruit and tree nut farms (017)

Horticultural specialty farms (018)

General farms, primarily crop (019)

Livestock farms, except dairy, poultry, and animal specialty (021)

Dairy farms (024)

Poultry and egg farms (025)

Animal specialty farms (027)

General farms, primarily livestock (029)

Farms not classified by SIC

Livestock farms, except dairy, poultry, and animal specialty (021)

Total	\$100,000 and over	\$40,000 to \$99,999	\$20,000 to \$39,999	\$10,000 to \$19,999	\$5,000 to \$9,999	\$2,500 to \$4,999
-------	--------------------	----------------------	----------------------	----------------------	--------------------	--------------------

Value of Products Sold

Market value of agricultural products sold

farms \$1,000

Farms by value of agricultural products sold:

\$500,000 and over

\$200,000 to \$499,999

\$100,000 to \$199,999

\$40,000 to \$99,999

\$20,000 to \$39,999

\$10,000 to \$19,999

\$5,000 to \$9,999

\$2,500 to \$4,999

Under \$2,500 (see text)

Grain sold

farms \$1,000

Sales of \$40,000 and over

farms \$1,000

Tobacco sold

farms \$1,000

Sales of \$40,000 and over

farms \$1,000

Cotton and cottonseed sold

farms \$1,000

Sales of \$40,000 and over

farms \$1,000

Field seeds, hay, forage, and silage sold

farms \$1,000

Sales of \$40,000 and over

farms \$1,000

Other field crops sold

farms \$1,000

Sales of \$40,000 and over

farms \$1,000

Vegetables, sweet corn, and melons sold

farms \$1,000

Sales of \$40,000 and over

farms \$1,000

Fruit, nuts, and berries sold

farms \$1,000

Sales of \$40,000 and over

farms \$1,000

Poultry and poultry products sold

farms \$1,000

Sales of \$40,000 and over

farms \$1,000

Dairy products sold

farms \$1,000

Sales of \$40,000 and over

farms \$1,000

Cattle and calves sold

farms \$1,000

Sales of \$40,000 and over

farms \$1,000

Hogs and pigs sold

farms \$1,000

Sales of \$40,000 and over

farms \$1,000

Sheep, lambs, and wool sold

farms \$1,000

Sales of \$40,000 and over

farms \$1,000

Other livestock and livestock products sold

farms \$1,000

Sales of \$40,000 and over

farms \$1,000

Nursery and greenhouse products sold

farms \$1,000

Sales of \$40,000 and over

farms \$1,000

Forest products sold

farms \$1,000

Sales of \$40,000 and over

farms \$1,000
